## Unable to get JDBC connection with PostgreSQL

I am trying to get a JDBC connection to PostgreSQL. Driver version in dependency is: 9.4-1204-jdbc42 and Postgres version is 9.5.0. Following is the stack:

```
\textbf{Caused by: } \texttt{java.lang.} \textbf{UnsupportedClassVersionError: } \texttt{org/postgresql/Driver: UnsupportedClassVersionError: } \texttt{org/postgresql/Driver: UnsupportedClassVersionError: } \texttt{org/postgresql/Driver: UnsupportedClassVersionError: } \texttt{org/postgresql/Driver: UnsupportedClassVersionError: } \texttt{org/postgresql/Driver:

<sup>&</sup>quot;unsupported major.minor version 52" says that you must use java8 and are running in iava7 or lower.

- 9.4-1204-jdbc42 is the driver compiled in java8.
- 9.4-1204-jdbc41 is the driver compiled in java7.
- 9.4-1204-jdbc4 is the driver compiled in java6.

I am using jdk8 - Manoj Suthar Jan 15 at 17:51

your java runtime says: "no" :-) - Christoph-Tobias Schenke Jan 15 at 17:53

Restarting the IDE after JDK update was needed I guess :). Thanks a lot. It works now :) - Manoj Suthar Jan 15 at 18:01

The PostgreSQL driver you're using is built for Java 1.8, but you're not running Java 1.8 - probably you're running Java 1.7

Either upgrade to Java 1.8 or use the postgresql-9.4.1207.jre7.jar file that works with Java 1.7 (as you can see here )
